EXPERIENCE

MetalMarketin Pvt Ltd

Remote | 2 Months

Frontend Developer

- Developed responsive, user-friendly frontend interfaces using React.js, HTML5, CSS3, and JavaScript to maximize user engagement.
- Integrated frontend applications with backend REST APIs, enabling seamless dynamic data flow and real-time interactions.
- Optimized UI performance and cross-device responsiveness, improving page load times and overall user experience.
- Built reusable, component-based architecture aligned with production-level client requirements and deployment workflows.

PROJECTS

AI-Powered Handwritten Answer Sheet Evaluation System

- Built an end-to-end AI-driven platform that automates assessment of handwritten examination papers at scale.
- Implemented OCR integration to extract handwritten text from uploaded answer sheet PDFs with preprocessing via OpenCV.
- Designed an NLP processing pipeline for text cleaning, normalization, semantic analysis, and answer structuring.
- Integrated Large Language Models (LLMs) for intelligent answer evaluation, scoring, and AI-powered feedback generation.
- Developed topic-wise performance analysis, weak-topic identification, and class-level analytics dashboard.
- Built scalable REST APIs with JWT-based authentication and role-based access control for secure multi-user workflows.
